Career Objective

Motivated and adaptable Computer Science Engineering student with a strong foundation in Python, full-stack development, and problem-solving. Eager to apply my skills in software development, AI, and data science to contribute to innovative tech solutions. Looking to join a forward-thinking organization where I can grow and add value as a full-time developer.

Technical Skills

- Python
- HTML
- CSS
- MS-Excel
- Full Stack Developer

Soft Skills :

- Creative Thinking
- Adaptability
- Time Management
- Quick Learning

Certifications

- Python Programming - Besant Technologies
- Full Stack Development - Besant Technologies
- Internship Certificate - Technohacks

Languages

- English (Fluent)
- Tamil (Native)

Strengths

- Fast Learner
- Self-Motivated
- Team Player and Adaptive to New Environments

Education

Bachelor of Engineering in Computer Science & Engineering

P.S.V College of Engineering & Technology - 2025 | 80%

HSC - Higher Secondary Certificate

Sri Vijay Vidyalaya Higher Secondary School - 2021 | 80%

SSLC - Secondary School Leaving Certificate

Udhayaam Matric Hr. Sec. School - 2019 | 69%

Internships

Python Development Intern - Technohacks

- Built mini-projects using Python fundamentals.
- Gained experience in script writing and basic automation.

Full Stack Development Intern - Besant Technologies

- Used HTML, CSS, JavaScript, and introductory React components.

Python Programming Course - Besant Technologies

- Completed hands-on training covering core Python, file handling, and OOPs.

Projects

Low-Cost Eye Gesture Communication System
Designed a machine learning-based system to recognize eye gestures for motor-impaired individuals.

- Used open-source software and cost-effective hardware to improve accessibility.
- Tools: Python, OpenCV, Haar Cascades

Keylogger (Educational Purpose Only)

- Developed a keylogger to record keystrokes using Python for educational demonstration. Implemented basic encryption and log file management.
